

A Path to Success Email Interactions

Below is a record of my recent email interactions with A Path to Success. Which includes a response towards my email on 5/20/2025, as well as my further communication with them on 5/28/2025.

Email Interaction (5/22/25)

On 5/22/25, Kaylin responded towards my email on 5/20/25, which states the following.

Hello Wilfredo,

Thank you for letting us know! I have updated your email on file.

We also received your other email with an update on your progress. Thank you for keeping us updated! I hope that you receive an answer from the small business administration soon.

Thank you and have a great week!

Email Interaction (5/28/2025)

On 5/28/25, I have sent a follow up email, which states the following.

Good morning,

I have some more progress updates, for this week. As far as the transportation is concerned, I have updated everything with the phone company to make my father the billing contact as well as the account holder, so that they don't send anymore Lyft rides in my name when I call up. We have gotten a high bill in the over \$200. I have brought the bill into the negative amounts, which should adjust accordingly as the EFT payments are refunded. I still have the option of using the paratransit, or circuit if needed, due to my disability and being a resident of New Rochelle, I would have to ask my mom or do it on my brother's phone, since I don't have a smart phone.

As far as the self-employment and legalizing my business, after consulting with the county clerk's office, in person. As well as previous emails with your agency, I have decided that the best way for me is to channel directly with the IRS, through a tax return. As far as a tax return goes, I have to look more into the standard deduction prior to the TCJA act of 2017, being passed. As this would let me know when it's the appropriate time to file a return, with my income amount outside of SSDI. As far as SSDI is concerned after researching numerous trustworthy sources, it has a different income limit. Which a 50% tax on the first \$25,000 of annual income, including income from other sources. Again, I may have to look back on this prior to 2017. Before the TCJA was passed.

As far as the benefits aspects of things, I was trying to find out if there is a collective bargaining agreement document that applies for a specific industry or sector, rather a company (employer vs. employee). I'm trying to find one that applies to the information or financial sector, for my situation.

Let me know how you could be helpful or let me know your thoughts. Also, I still haven't heard back from the small business administration, which doesn't surprise me, due to it being unique.
